EDUCATION

Cameron Heights Collegiate Institute | IB Student | Kitchener, ON

Sept 2024 - June 2028

Relevant Courses: Computer Technology (Arduino/C, Computer-Aided Design, Raspberry Pi): Grade: 98%

Club Involvements: Coding-Robotics executive (weekly lessons), FBLC competitor, Chess competitor, Badminton team player

EXPERIENCE

Private Python Tutor | Remote

May 2025 - Present

- Taught 50+ Python programming lessons to beginners (ages 10 and up), interactively covering core concepts.
- Designed customized lessons with **hands-on exercises**, **mini-projects**, and **real-world analogies** to reinforce learning.
- Tracked student progress with incremental challenges, from basic syntax to complex logic (loops, functions, error handling).
- Integrated **project-based learning**, culminating in a text adventure game combining all concepts
- Adapted teaching methods for different learning styles (visual, kinetic) using tools like **Turtle Graphics** for engagement.

PROJECTS

ReadBuddy | Python, OpenCV, FastAPI, React.js, Next.js, Tailwind CSS | RythmHacks **Top 3 Overall**

Oct 2025

- Created an **eye-tracking personal reading tutor** that helps early readers by detecting struggles in real-time, providing definitions and pronunciation support.
- Designed a polished user interface with React.js and Tailwind CSS that motivates children to keep reading.

Goodminton | Python, Node.js, React.js, Next.js, Tailwind CSS, YOLO | IgnitionHacks **\$200 Prize Winner**

Aug 2025

- Developed an AI-powered badminton match analyzer leveraging YOLO and motion tracking to detect shuttlecock trajectories and record rally scores live, allowing users to play badminton with a **virtual court and net**.
- Delivered a real-time, responsive scoreboard using Next.js, Tailwind CSS, and WebSocket streaming with the team.

YouTubeTranslate | Python, Flask, SQLite, HTML, CSS, JavaScript

July 2025 - Aug 2025

- Developed a **full-stack web app** that translates YouTube videos into other languages using Python (Flask, Whisper, gTTS) and integrates seamless video/audio processing with FFmpeg, reducing language barriers for **50+ language pairs**.
- Designed a user-friendly interface (HTML/CSS/JS) with secure login (SQLite sessions).

AWARDS

- NeoDev League 2025 **“Third Best Overall”** out of ~70 participants.
- RythmHacks 2025 **“Third Best Hack Overall”** out of 65+ participants.
- IgnitionHacks 2025 **“Best Use of Roboflow” \$200 Award** out of **160+** participants.
- CEMC 2025 Pascal Contest: 121/150 (**Top 9.5% of 25,000+**).
- CEMC 2024 Gauss Contest: **1st place school-wide (Top 10% of 13,000+)**.

CERTIFICATIONS

CS50's Introduction to Artificial Intelligence with Python | Harvard University, Cambridge

July 2025 - Nov. 2025

- Optimizations, Machine Learning, Neural Networks (**Tensorflow**), Natural Language Processing (NLTK), **OpenCV**

CS50's Introduction to Computer Science | Harvard University, Cambridge

April 2025 - July 2025

- C, Algorithms, Memory, Data Structures, Python, Artificial Intelligence, **SQL**, HTML, CSS, JavaScript, and **Flask**.

CS50's Introduction to Programming with Python | Harvard University, Cambridge

Jan 2024 - June 2024

- Functions, Variables, Conditionals, Loops, Exceptions, Libraries, Unit Tests, File I/O, Regular Expressions, and OOP

TECHNICAL SKILLS

Languages: C, JavaScript, Python

Technologies: Bootstrap, CSS3, HTML5, Flask, OpenCV, MongoDB, SQLite, Tensorflow, Numpy, Scikit-learn, Arduino

Tools: Git, Arduino IDE, Tinkercad, Onshape, Roboflow
